

We've Missed You!

Residential Living Visiting Guidelines

Safely Visit *Your Loved One*

On June 26th, we entered the Green Phase in Montgomery County. With this Peter Becker Community announced adjustments to our visitation policy for residential living to allow more freedom and flexibility to our residents and visitors. Unfortunately, state mandate still requires use to continue visitation in Health Care Center and Personal Care with additional precautions. The following visiting guidelines are in place for residential living updated as of 8/31/2020:

1. Visitors will be allowed indoors in resident apartments/cottages for residential living only.
2. Masks and social distancing of 6 ft. or greater is required for all visitors at all times on campus.
3. All visitors are asked to enter at the main lobby at either campus building to get screened. Screening will be done by receptionist at desk during business hours. Anyone with signs/symptoms will not be allowed to enter campus.
4. Visitors in Ridgeview may not walk through any part of Personal Care or the Health Care Center. We ask you please use other routes to travel throughout of the building.
5. Doors will continue to be locked after-hours.
6. Visitors must be escorted by resident while on-campus at all times including when visitor initially enters campus.
7. No using elevator with other resident's visitors. Please kindly wait until the elevator returns.
8. No overnight visitors or use of guest rooms at this time.
9. No visitors in dining rooms as we allow residents to take advantage of the limited seating with dining reopening.
10. Visitors can eat in Season's Café or get takeout to eat with a resident in their apartment or cottage.
11. Visitors are allowed in the gift shop accompanied by a resident escort.

Thank you for your patience and understanding during this time. Together, we can overcome these challenges and enhance the care of your loved ones.

Suzanne Owens, CEO

Updates Effective 8/31/2020
